ABOUT ME

I'm courteous and enthused, and I'm interested in IT and all that surrounds it. I've recently began a fascination for Java full-stack programming. Programming languages including Java, HTML, CSS, JavaScript, Python (Basic), and C are among my strong suits. I have participated in a variety of minor projects.

I am a good communicator who is extremely active at work, and I will be a nice and friendly addition to your team. I am there to be mentored toward a great career and am now looking for a job or internship.
